

August 2021
EAA CHAPTER 377

fly paper

EAA—Our mission: To grow participation in aviation by sharing the spirit of aviation.

LAST MONTH

Randal Loder

Saturday, July 10th featured some of the best Chapter #377 Fly-In weather in recent memory with blue skies, calm winds, and moderate temps. With Marshall and Suzi Watson and family hosting the tasty noon potluck it turned out to be a nearly perfect day for the 43 people in attendance. There was a good mix of regular Eagles, a fine group of Young Eagles, a couple of Eagles yet to hatch and a handsome 4-legger named "Bill". Unless the pictures tell a slightly different story, I don't recall there being any Bald Eagles.

In addition to some pulled pork Marshall grilled some great polish sausage, and as they always do, the Fly-In attendees provided a number of delicious side dishes and desserts. A blueberry/Rhubarb cobbler was particularly quick to disappear.

In addition to Marshall's two aircraft, 8 others joined the flight line and I'm not blowing smoke although one of the aircraft did just that for us upon arrival.

Tech Counselor Bill Anton spoke to the group about the tireless devotion and dedication of FLY PAPER Editor/Publisher Mary Shorridge and her importance in keeping our Chapter functioning. Bill pointed out that even though the last 15 months have presented some extreme challenges, Mary's work has provided the glue that's held us together. He also detailed the great selection of Fly-In opportunities and events scheduled for the remainder of 2021. We were fortunate to be able to introduce (Dr.) Brad Rachow of Liberal as our newest member and look forward to seeing him at future events.

THIS MONTH

HOOKER MUNICIPAL FLY-IN

August 7th 9:30 a.m

City of Hooker and EAA 377

Spot Landing Contest upon Arrival
To Win a \$50 Visa Gift Card

Breakfast Sold by Taco Stop
**Breakfast is free for pilots that fly in*

Hooker, Oklahoma – O45 – 17/35 – 122.9
Self Service Fuel - \$4.19/Gallon (subject to change)

For More Information:
Buddy Holbert – (580) 522-1221
Mark Davis – (620) 482-0354
Aaron Witt – (580) 522-1231

Anyone Interested in Aviation and Airplanes is Welcome!!

F . Y . I .

Chapter 377 normally meets on the second Saturday of each month. "Meetings" are normally fly-ins to different member airports, with a potluck at noon and short meeting following. December is the Club Christmas Party. Contact any of the officers listed to confirm meeting date and place. Anyone interested in recreational flying or building is encouraged to attend.

FLY PAPER is published monthly, normally mailed a week before each meeting/fly-in.

Annual membership in Chapter 377 includes one year subscription to FLY PAPER. Send \$15 (\$7.50 after July 1) to Randal Loder, Treasurer,

Readers are encouraged to contribute articles, photos, etc. by submitting them to the Editor/Publisher.

Deadline for the September 2021 issue is September 3.

OFFICERS:

President—Bill Cotter, 936-499-8042, wmpcotter@aol.com

Vice President—Matt Rome, 620-544-6331
matthewrome33@gmail.com

Newsletter Editor / Publisher—Mary Shortridge
620-272-4379 (receives text messages, photos)
maryshortridge@gmail.com
12401 Yankee Hill Rd, Bennet, NE 68317

Tech Counselor—Bill Anton, 620-649-2797 or (c)649-7172, bnanton@pld.com

Treasurer/Secretary—Randal Loder, rloder@ssbscott.com
Work Phone: 620-872-7224 Ext. 231, Mobile: 620-214-3877
508 S College St, Scott City, KS 67871

With the state of Covid19 stuff, who knows what will happen on a day to day basis. President Bill Cotter has organized this list for 2021; please confirm times/locations as some changes may occur. Sure hope to see you on the ramp some day soon!

COMING UP...

7 August—EAA 377 BREAKFAST at Hooker, OK. 9am. Hosted by Hooker Airport and Mark Davis. 620-482-0354. **PLEASE NOTE THIS IS NOT OUR "NORMAL 2ND SATURDAY."**

11 September—Air Show in commemoration of 20th anniversary of 9/11. Scott City, KS Airport.

18 September—EAA 377 Noon Potluck, hosted by Mid America Air Museum, Liberal, KS KLBL. 620-624-5263 **PLEASE NOTE THIS IS NOT OUR "NORMAL 2ND SATURDAY."**

2 October—Syracuse/Hamilton CO (3K3) Annual Classic Fly-In. Steve Phillips 620-384-5835 (Remember Syracuse is on Mountain Time) **PLEASE NOTE THIS IS NOT OUR "NORMAL 2ND SATURDAY."**

6 November—EAA 377 Noon Potluck, hosted by Stan Reiss family. Plains, KS. 620-629-3604 **PLEASE NOTE THIS IS NOT OUR "NORMAL 2ND SATURDAY."**

11 December—Christmas Party.

ANOTHER ISSUE

THANKS TO: AOPA, Bill Anton, Bob Immel/Mid-America Air Museum, Brian Vulgamore, Cristi Higgins, Dee Ann Ediger, EAA, Jim Beyer, Mark Davis, Paul Fiebich, Randal Loder, Tom Auerbach, Wayne Melanson **.THANK YOU ALL FOR YOUR SUPPORT!**

You don't have to be an instrument pilot to benefit from the IMC Club meetings at SFEC. Meeting is 7-8pm CT, with dinner offered at 6:45. Come join in on the discussion on the second Monday of each month (not meeting in June). For More Information you can contact

The Ponca City Airport (KPNC) is now open for fixed wing traffic (as well as rotorcraft).

Enrique's' Mexican Restaurant is open with regular hours.

The First Saturday Ponca City Breakfast is planned to resume in August.

Saturday, August 7, 2021
Ponca City Aviation Booster Club
Fly-In/Drive-In Breakfast – 7-10AM
Ponca City OK Regional Airport
(KPNC)

HEARD IN THE HANGAR

BASIC MED REMINDER—Within the past 48 months **to the day**, you must have completed a CMEC (Comprehensive Medical Exam Checklist) and medical examination with a state-licensed physician. You must submit the information from this visit electronically upon completion of the BasicMed online course. Note that it isn't the MONTH, rather the DATE, that you need to be aware of.

You then must keep a copy of these documents in your logbook. AOPA's website that helps you with this will make a certificate available for you to print upon completion of the training video and test.

I suggest you take notes on items you don't know. Some of the test questions seemed to cover rather obscure information. There are 20 questions, and you must get 80% or better. You can review and retake the test if you don't get 80% the first time.

AOPA recently released an article on the success of basic med since it's inception five years ago. It certainly is nice to go for the physical every four years (rather than three for the 3rd class medical I had). The price tag was a lot better, too. My dr only charged me \$125. I can't remember when I got out of a doctor's office that cheap!

<https://www.aopa.org/news-and-media/all-news/2021/july/19/basicmed-five-years-of-safety-efficiency-growth>

FROM BRIAN VULGAMORE—Beautiful view from North America's highest paved runway at 9934' above sea level (Leadville - LXV). Colorado's highest peaks of Mount Elbert at 14,439' on the left and Mount Massive at 14,429' on the right. Thanks to Shane Jordan for the flight instruction and tour of the mountains. Shane lives in Montrose, Co, and we do 6-month recurrent training in the Pilatus to stay extra proficient. We always select a few mountain airports to fly into on our way out and back.

EAA Webinars Schedule

Counter your post-AirVenture blues and keep yourself busy until July 2022 with EAA's free and educational webinars that you can enjoy from the comfort of your home. Pre-registration is recommended, as space is limited.

Homebuilt Highlights from AirVenture

TUESDAY, AUGUST 3, AT 7 P.M. CDT

Presenter: Marc Cook | Homebuilders Webinar Series

Misfueled with Jet A

WEDNESDAY, AUGUST 4, AT 7 P.M. CDT

Presenter: Mike Busch | Qualifies for FAA WINGS

Bugatti 100P: One of a Kind

TUESDAY, AUGUST 10, AT 7 P.M. CDT

Presenter: Bob Havens | Museum Webinar Series

Runway Directional Control

WEDNESDAY, AUGUST 11, AT 7 P.M. CDT

Presenter: Tom Turner | Qualifies for FAA WINGS credit.

Alluring Figures in Aerobatics: What the Rules Say, What Judges Like, and What Pilots Do

TUESDAY, AUGUST 17, AT 7 P.M. CDT

Presenter: DJ Molny | Qualifies for FAA WINGS credit.

How to Become a CFI

WEDNESDAY, AUGUST 18, AT 7 P.M. CDT

Presenter: Radek Wyrzykowski | Qualifies for FAA WINGS credit.

Tundra Tires Rule: Alaska Style

WEDNESDAY, AUGUST 25, AT 7 P.M. CDT

Presenter: Laura Herrmann | Qualifies for FAA WINGS credit.

Machine Learning

WEDNESDAY, SEPTEMBER 1, AT 7 P.M. CDT

Presenter: Mike Busch | Qualifies for FAA WINGS and AMT credit.

Avoiding Carburetor Icing - A Cool Pilot's Guide to Carb Heat

WEDNESDAY, SEPTEMBER 8, AT 7 P.M. CDT

Presenter: Prof. H. Paul Shuch | Qualifies for FAA WINGS and AMT credit.

Air Racing History - Part 2

TUESDAY, SEPTEMBER 14, AT 7 P.M. CDT

Presenter: Connor Madison | Museum Webinar Series

Buying Your First Aerobatic Airplane

TUESDAY, SEPTEMBER 21, AT 7 P.M. CDT

Presenter: Budd Davison

Flying With the iPad — Your Digital Co-Pilot

WEDNESDAY, SEPTEMBER 29, AT 7 P.M. CDT

Presenter: ***Bret Koebbe** | Qualifies for FAA WINGS credit. *(I highly recommend this!)*

EAA gratefully acknowledges the support of Aircraft Spruce & Specialty Co. for its generous sponsorship of our webinar programs.

RIGHT/BELOW—CRISTI HIGGINS and family had a real adventure at Airventure!

2021 AIRVENTURE ADVENTURE

BILL, MARC, & ERIK ANTON

MOUNTAIN FLYING

By Wayne Melanson

I just recently returned from a flight to Salida, Colorado to visit some friends/home missionaries to South Central CO. The Friday afternoon flight there proved to be rather hot and bumpy as I stayed down low to lessen the effects of the headwind. Rick, his daughter, and I had a flight planned from Salida (field elevation 7,500 feet) to Montrose (field elevation 5757) the next day. We had been looking at the weather, temperatures, and gross weight planning to fly with no extras and less than full fuel. The plan was to depart in the morning, circle a few times to gain altitude, and head over Monarch Pass and on to Montrose. All that looked good until we studied the return flight. Montrose being on the West side of that ridge is typically hotter. So with the hot temperatures we calculated the takeoff return flight altitude density to be over 10,000 feet. We cancelled that flight and tabled it until the fall.

For an alternate flight experience both of the kids like flying. Early Saturday morning Caleb and I took off to the north gained altitude and flew over Cottonwood Pass and on up to Aspen. We turned slightly east and came back down past Leadville. Still being early in the morning, but by then the ASOS at LXV was already reporting over 12,500 altitude density. We flew by

without stopping in. Perhaps I can do that during the winter months.

I calculated fuel and added a bit more. Then it was Aubree's turn. For this flight we heads south over Poncha Pass, a little further south and west over North Pass, and on to Gunnison. From Gunnison we turned east gaining a bit more altitude to clear Monarch Pass. Aubree got some flying in and I used her camera and took pictures for her. After clearing the pass we had a quick decent to get down to TPA to return to the Salida

airport. It was calm and cool at altitude for both flights. That afternoon I received an article from AOPA "In This Week's Episode—"Dangerous Conditions Persist"

Record-breaking heat may have played a role in a fatal crash in Colorado, and possibly other aviation mishaps in sweltering Western states. The AOPA Air Safety Institute reminds pilots to mind the density altitude. That article reinforced our decision for us not to make the trip to Montrose with 3 people until cooler temperatures dominate the area.

AIRPLANE STORIES, PEOPLE STORIES

By Mary Shortridge

Ron and I have been anxious to get out of town for an adventure, and responsibilities haven't allowed for a long vacation. I have been hungry for an aviation fix, so with Jim Kirk's reports on his C120 and PT26 projects, Leavenworth seemed like a great fit! We finally found a day that would work and we had a WONDERFUL time!

We knew we were close when we saw the sign....

And when we pulled in the drive and I got a peek in the hangar the day got even brighter!

I met Jim years ago when Norm Buehler introduced me. Jim had purchased

Norm's Thorpe T18 and was using it to commute from his home in Leavenworth to his farm in Scott County. I was so excited to see Norm's plane, and all kinds of Norm memories flooded me. Anyone that has been part of our group for quite a few years may have been lucky enough to know Norm. If you missed knowing him, I am truly sorry. He is one of the very best guys you would ever be lucky to know. (He passed away in 2008, just shy of 93 years old)

Jim filled me in on some of the characteristics of the Thorpe, and shared some of the upgrades and modifications that he has made, that he thinks Norm would be pleased about.

We then inspected the PT26, a giant bird next to the Thorpe. I got to sit in the cockpit (flown from the front seat) and was surprised at how roomy it was. Of course those guys were dressed appropriately for an open cockpit and cold temps, so makes sense it had more

room than many planes do. Jim shared that the fellow that donated the plane to the Air Force Museum, Lt. L Rodger Currie, USMC (Ret), had quite a colorful life. More reading ahead...

When we stepped outside the hangar I noticed the abundance of blackberries, so Jim insisted we pick some. We took them home and had them with homemade ice cream for Ron's dad's birthday.

Off we went to see more airplanes. The C120 project is housed in a neighbor's hangar closeby. They are partners on the project. It is beautiful! And of course has many more \$\$\$ invested, and sweat equity, than they either planned on originally.

Our next stop was Restored Aircraft Sales and Service, just a few miles down the road from Jim's. John Roper, owner, was gracious to spend some time showing us around. They had just recently moved their shop and acquired much more shop room, so they aren't up and running normally yet. So of course Ron and I need to go back for another visit! John is a "Funk" guy (even sporting the tee shirt) and had multiple Funk parts hanging about. Also of interest was the Stearman project for an airshow pilot. Ailerons were being extended, and installed on all wings, not just the original bottom ones. The workmanship was exquisite. Check out this video I found on Facebook and shared on our EAA FB page. https://fb.watch/77_aLmfXav/

Ron and I had read about the Buffalo Soldier's Memorial and wanted to visit while we were in Leavenworth. What we had not realized is it is on the military base, where they don't let tourists in. How convenient Jim has military credentials so he took us for a tour. The number of old buildings from the mid 1800s was astounding. They were beautiful! We could not have picked a better day to explore.

Sadly, we ran out of time and did not get to the Airline Museum (John Roper is a volunteer and serves on the board) So of course we will be going back to check on that, and the progress on the PT26.

Our brains were filled with fascinating airplane facts and stories and, our souls were happy having spent time with people sharing their passion for airplanes. We were gone less than two days, but what a vacation!!!

Mid-America Air Museum's "Kona Jack"

By Bob Immell, Director

This month's featured aircraft is nicknamed "Kona Jack" and is a 2/3 scale replica of the North American P-51 Mustang from WWII. This is a kit airplane that was manufactured by Fighter Escort Wings (F.E.W.) and was assembled in Ardmore, Oklahoma for the late Jack R. Hunt of Wichita. The aircraft's serial number is #68. It is powered by a Chevrolet small block aluminum V-8 engine. The plane is 21 feet 2 ½ inches long with a wingspan of 25 feet 4 ¾ inches, and a height of 103". The empty weight of the plane is 1991 lbs. and has a gross weight of 2,786 lbs. The plane has two fuel tanks that combined holds 58 gallons of fuel. The stall speed of the aircraft is 60 mph and has a cruise speed of 200 mph and a Never Exceed Speed of 340 mph. The specs for the airplane claim it is capable of +6 g's and -6 g's.

Kona Jack taxied for the first time on August 9, 2000 and made its first short flight on August 27, 2000. On October 10, 2006 the airplane flew to the Mid-America Air Museum and ownership was transferred to the museum on November 17, 2006. Jack Hunt was an enlisted man in the Army serving in the European Theatre during WWII and later received his officer's commission and ultimately earned the rank of Captain. Among other things Jack was a pilot, although I do not know if he flew a P-51 in combat or not. While researching F.E.W. TF 51 aircraft I ran across more than one mention of problems with the landing gear needing replaced and one incident of it collapsing upon landing. I do not know if this was a design weakness or the result of too many hard landings. I also have to wonder if the plane could really perform high G maneuvers without causing engine damage from temporary loss of oil flow since the Chevy LS engine was not designed for use at high angles of attack or inverted flight, but I will leave that up to those who are qualified to make that decision. I would like to hear your answers to these two questions if you know the answer. You can email me at Bob.Immell@cityofliberal.org. Regardless of these two issues Kona Jack is a beautiful airplane and certainly a crowd pleaser at the Mid-America Air Museum in Liberal, KS.

As always if you wish to see the aircraft in person come visit us. You can drive in and park in our parking lot or fly in and come in through the back door. Our hours are 9 am to 6 pm Tuesday through Saturday and 1 pm to 5 pm on Sundays. We do cut admission to the museum off 30 minutes prior to closing time and we are always closed on Mondays. Also, we are looking forward to seeing all of you for the monthly EAA fly in on September 18th here at the museum.

UPCOMING EVENTS

TOM AUERBACH of Ponca City, OK does a GREAT job of keeping a list compiled of upcoming aviation events. Looking for an excuse to fly? Here you go! Remember to verify as part of your preflight! Covid issues as well as weather issues can cause last minute changes.

Saturday, August 7, 2021

Ponca City Aviation Booster Club Fly-In/Drive-In Breakfast – 7-10AM

Ponca City OK Regional Airport (KPNC)

The First Saturday Ponca City Breakfast is planned to resume in August.

Saturday, August 7, 2021

Haskell OK: Coffee & Donuts

Haskell Airport (2K9) AirNav.com CTAF: 122.9

EVERY SATURDAY - 8:00 am - 10:00 am

Saturday, August 7, 2021

Pauls Valley Municipal Airport (KPVJ) AirNav.com
CTAF: 122.8

1st Saturday of every month - Oklahoma Antique Airplane Association

The Oklahoma Antique Airplane Association has a monthly meeting/Fly-In at or club house on the north-west corner of the PVJ field, once a month on the first Saturday. Come join in on the fun! You don't have to fly an antique in, we have cars, motorcycles, and every kind of airplane old and new. We eat about 11:30 to 12:00 and have burgers hot dogs and in the winter chili and Cajun food. Kids are welcome and rides are available for anyone that shows up.

We will have a meeting after lunch but you are welcome to come early for coffee.

LETS KEEP EM FLYING!! Johnene Smith

Questions? Call Shannon Sharp: 405-238-4035 or email: casandjohnsmith@gmail.com

August 7 - Morrilton, AR - Morrilton Municipal Airport (KBDQ) 9:00 AM until all food is gone. Full Breakfast with Petit Jean Sausage & Bacon. Sponsored by EAA 1590. EAA Meeting will follow breakfast. This will be a recurring event on the first Saturday of the month. Contact: 501-472-1197

August 7 - Springdale, AR - Springdale Municipal Airport (KASG) 9 AM - 4 PM Flightline Bar & Grill Breakfast all day with free pancakes with each meal. 479-318-2523 Flightline's new hours: We're open Tuesday-Friday 7-2, and ALL Saturdays 9-4. We will continue to offer free pancakes on the 1st Saturday of the month.

Saturday, August 7, 2021

Ellsworth, KS - Ellsworth Municipal Airport ((9K7) fly-in
Send details please.

Saturday, August 14, 2021

Wichita EAA Chapter 88 - 2nd Saturday Breakfast
Monthly Breakfast 8 - 11 AM. Eggs, Pancakes, grilled Sausage, Coffee and Juice!!
