

fly paper

May 2024
EAA CHAPTER 377

EAA—Our mission: To grow participation in aviation by sharing the spirit of aviation.

LAST MONTH

FROM BILL COTTER

The fly-Fly-In was a great Success, we had 30 people, including **RICK STEVENS**, the FAAS Team Program Manager from the Wichita FSDO dropped in. Rick gave a very interesting presentation on pilots and their responsibilities. We also had **LEO CARRILLO** mayor of Elkhart. The turn out was wonderful!

LEO CARRILLO & DENNIS TEVEBAUGH

RICK STEVENS

THIS MONTH

Due to scheduling conflicts, the May fly-in potluck had to be cancelled.

See you at Lakin in June for Breakfast!

F.Y.I.

Chapter 377 normally meets on the second Saturday of each month. "Meetings" are normally fly-ins to different member airports, with a potluck at noon and short meeting following. December is the Club Christmas Party. Contact any of the officers listed to confirm meeting date and place. Anyone interested in recreational flying or building is encouraged to attend.

FLY PAPER is published monthly (except November/December), normally e-mailed a week before each meeting/fly-in.

Annual membership in Chapter 377 includes one year subscription to FLY PAPER. Send \$20 to Randal Loder, Treasurer,

Readers are encouraged to contribute articles, photos, etc. by submitting them to the Editor/Publisher.

Deadline for the June 2024 issue is Friday, May 31, 2024

OFFICERS:

President—Bill Cotter, 936-499-8042, wmpcotter@aol.com

Vice President—Bill Anton, 620-649-2797 or (c)649-7172, bnanton@pld.com

Newsletter Editor / Publisher—Mary Shortridge
620-272-4379 (receives text messages, photos)

LAST MONTH AT ELKHART

Photos by Bill Cotter

Look carefully at your May issue of SPORT AVIATION. **KYMBERLY LOGAN'S FLY PAPER** article was included on page 112! It is certainly something to be proud of, and nice that National Headquarters values this.

MEMBERCENTRAL

MEMBERS/CHAPTERS IN ACTION

A Challenge for Chapters

BY KYMBERLY LOGAN

WE ALL HAVE THAT one person who introduces us to aviation. Sometimes, it's more than one person. For me, I was blessed to be born into aviation. My dad is a pilot, and my grandfather and someone else in the family line were pilot/mechanics.

When I tell people I am an airport manager and aircraft mechanic, some people tell me they want to get into aviation or know someone who does. Some tell me they want to know more about it and want to get into the field. The first week of the new year, I spoke with a young lady who wants to be a mechanic!

I encourage and challenge everyone for this new year to help nurture someone's desire to get into aviation. It doesn't have to be a career! Just someone who wants to be part of our community and loves airplanes. Every month our chapter hosts wonderful get-togethers just to talk about aviation. Our chapter is blessed to have so many people who do a little bit of everything in aviation. We have builders, pilots, instructors, mechanics, an aircraft museum curator, and airport managers. That pretty much covers the spectrum of aviation! Sorry, I forgot about engineers ... but I'm not partial to them sometimes! Ha-ha, what mechanic is?

Talk to your local school counselor, talk to your local airport manager (trust me, we get calls about who teaches!), talk to your community! School counselors always know who may be interested, but sometimes they do not know that there are local opportunities. When someone calls or comes by to ask about lessons or anything aviation, I always share our website and newsletter. I encourage them to just come to a fly-in. I also encourage them to reach out to me if they have any questions, and if I cannot answer them, I know someone who can, or I find someone who can!

I have spent most of my life in EAA Chapter 377, and most of the members have watched my sisters, my brother, my cousins, and I grow up every year by attending my grandparents' Funny Farm Fly-In. When I moved, and Mary (our newsletter editor) can attest to this, finding another group of aviation

I guess this is what started my maintenance path. I was 4 when Grandpa and Grandma got this toy car for my sister, Stephanie (2), and I. When it came time for us to switch, I would reach under the dash, unplug the connector for the speed switch and flip it, then plug it back in. I did that so Stephanie couldn't go fast, and I could. Eventually, Grandpa caught on to what I was doing and how I did it. He told me I had a knack for knowing how things worked and would know how to fix it.

Kyemberly hard at work.

Jack and the three generations he inspired: Baby Elaine, Kyemberly, and Jack's son John. Christmas 2020.

enthusiasts like our chapter was extremely difficult. The other groups I checked out were more of just once a year or a couple of times in the summer meet-up kind of groups. Nothing like our group that meets up every month, where everyone is friendly and shares the passion of aviation — the type of group that comes together when it's needed most. Our chapter is like an extended family to me and others. I encourage and challenge you all to help the continued growth of EAA chapters and bring in the next generation. This isn't just to increase our numbers, but to share the true love and compassion of aviation with the next generation.

With the recent loss of my grandpa, Jack Jenkinson, EAA 576629, someone who I looked up to my whole life, I am grateful and proud to have and be part of a chapter like this. The outpouring of care and condolences from our chapter speaks monumentally of my grandpa. He was a true advocate for aviation. He not only spoke it, though he was a man who was to the point and of few words, but also was a man of action and deeds. He introduced his family to this chapter because of his passion for aviation. With that, he brought another three generations into the fold! If one man who was passionate about aviation could introduce three generations to aviation, why can't one person introduce just one more person to aviation?

I challenge you all to introduce aviation to just one person this year. The next time you host a fly-in, let your local school counselor know. Get a hold of your school soon; some students are looking at colleges and need direction now. Some students will be looking for summer jobs, and if they are into aviation, some airports need summer help! It will give the students a leg up on their knowledge and résumé for aviation. Invite anyone with interest to lunch for more information, even if they can't fly but love airplanes!

Any support for the industry by someone who is not a pilot, mechanic, or manager helps support local airports to keep them up and running and in good condition. We need advocates for our industry. Take one look at the airports that are closing around California and the rest of the United States. There are not enough advocates to outweigh the general public, who are not well informed or care about aviation. When money is tight and cuts need to be made, airports look expensive on paper. All most people know about is commercial aviation, but they don't know that every commercial pilot starts at a small airport in a small aircraft.

HEARD IN THE HANGAR

FROM CHRIS STOKES— In search of a mechanic to maintain and restore warbirds in Lincoln NE. The current mechanic needs some additional help, and we are looking for an additional A&P to assist with the Boeing PT-17 Stearman and the Cessna A-37 Dragonfly project in Lincoln. This is a paid position. The ideal candidate would be a retired A&P/IA with restoration experience (but not required), and all resumes will be considered. Please email me at cbstokes1@gmail.com, or call me at 402-770-6145. Thank you.

“New ACS System Explained”

Topic: New ACS System Has Been Revised and It Will Effect Everyone!

On Tuesday, May 21, 2024 at 19:00 Eastern Daylight Time (16:00 PDT; 17:00 MDT; 18:00 CDT; 13:00 HST; 15:00 AKDT; 16:00 Arizona; 23:00 GMT)

Select Number: EA39129769

The definition of “Satisfactory” is about to change! Airmen certification standards are a critical resource that must be understood by all general aviation stakeholders. Aspiring pilots, instructors and examiners need to know what the FAA has defined as “Satisfactory.”

The FAA has released a new set of airmen certification standards, effective May 31, 2024, that impact virtually all pilot certificates. Some changes are subtle, while others may require a different approach to the check ride.

Join us as we provide an overview of the changes. The seminar is primarily for CFIs and DPEs, but all pilots are welcome to join.

To view further details and registration information for this webinar: <https://www.faasafety.gov/SPANS/>

YOU MUST PREREGISTER TO PARTICIPATE.

DID YOU KNOW??? Per **BILL COTTER**, Elkhart, KS EHA currently has 15 aircraft on the field, and has available hangars. If any of the aircraft move, EHA will no longer qualify for Federal funding. **PLEASE**, if you know of anyone in SW Kansas looking for hangar space, ask them to consider Elkhart EHA.

AMBER CRIST'S A36 BONANZA. Previously owned by Dr. Tom Koksai

HEARD IN THE HANGAR

FROM MARY SHORTRIDGE— My father had been making wooden toys for many years. When he passed away, leaving behind a million spare parts I gave them to **PAUL FIEBICH**, to possibly be used, avoiding the trash can. Add to that an airplane hood ornament I had that needed mounted to a block of wood; Paul took it home and decided to spiff up that block of wood a bit! The hood ornament now has an LED bulb running on a watch battery (from a model train supply house) You might notice that the truck my dad made on the left, has the same wheels Paul built the truck/garage with. Did you know there were hood ornaments with spinning props? You would if you were lucky enough to tour “The Museum of Speed” in Lincoln, NE. It is part of the Shortridge Guest Tour Schedule. You should check it out! (The museum is AMAZING, and I have not had any complaints from guests!)

KYMBERLY JENKINSON LOGAN— Currently in Oshkosh, WI for training as a mechanic for the Commemorative Air Force!

FROM MARY SHORTRIDGE—A GREAT REUNION in OMA (Omaha, NE) with KIRK DEARDEN. Kirk taught me to fly in December 1997, and has gone on to fly weather mod, Air Ambulance, and for the last 15 years flying for a private industry. I am SO grateful we have stayed in touch all these years via phone, but face to face is so much better! Kirk was in Omaha for the Berkshire Hathaway annual meeting, so there were a LOT of airplanes on the ramp. I got to sit in the left seat and see the heads up display, the fancy glass panel, the roominess of the cockpit, and my favorite was how high up we were while actually sitting on the ground. It was CRAZY! Best was hugs goodbye, with promises to get together soon in Oklahoma City as Kirk’s home base.

UPCOMING EVENTS

TOM AUERBACH of Ponca City, OK does a GREAT job of keeping a list compiled of upcoming aviation events. Looking for an excuse to fly? Here you go! Remember to verify as part of your preflight! Covid issues as well as weather issues can cause last minute changes. If you know an event has been cancelled, please contact Tom Auerbach @ m20c78956@sbcglobal.net

LONG RANGE PLANNING:

Note: If you know that any of these events has been cancelled, please send me an email, Tom Auerbach. Warning: As always check with the contact information before flying.

The wait is over. The Fly-Ins are back! Woodring's March Fly-In Breakfast will be Saturday, March 16th. As always Barnstormers will be serving their breakfast buffet from 7:30am to 10:00am, \$9.99 a plate per adult, and \$5.99 per kid 12 and under.

The following is the 2024 KWDG Fly-In Schedule:

Date	Time
18 May	7:30-10:00am
15 June 24	7:30-10:00am
20 July	7:30-10:00am
STOL/Spot Landing	
17 August	7:30-10:00am
21 September	7:30-10:00am
Poker Run	

All dates and times are subjected to change depending on weather so keep checking your email for updates.

I hope to see you all there!

Very Respectfully,

Mason Brinley,

Airport Operations Manager

Enid Woodring Regional Airport

Parsons KS Tri-City Airport (KPPF) – End-of-the-Month Fly-In Breakfast

The Parsons Tri-City Airport (KPPF; CTAF 123.0) will have its end-of-month fly-in breakfast this coming Saturday, May 25, from 8:00 until around 10:00 unless we run out of food sooner or it gets slow. Always a good time, weather or not. Hope you can join us! Contact: Marlene Carson champ46echo@outlook.com

Saturday, May 25, 2024

North Little Rock, AR - North Little Rock Municipal Airport (KORK)

The 4th Saturday of the month is coming up soon. That means it is time to go to North Little Rock Airport (KORK) and have breakfast in the EAA hangar with about a hundred of our closest friends. From 8:00 till 10:00 we will keep our big buffet bar stocked with loads of mouth watering, fresh cooked breakfast goodies and custom made omelets. You name it and we probably serve it. Among the many things we serve, the blueberry pancakes are sent straight from heaven. Our cooks strive to make this a breakfast you will be telling your friends about and they simply have to try it for themselves. We would appreciate a \$10. Donation, kids half price, so bring the whole family. Stay comfy in the heated and air conditioned and squeaky clean hangar. Fly or drive in. Cars use gate 20 which is 1 block south of the main airport entrance on Remount Road. Bring your classic cars, hot rods, motorcycles and show them off.

Questions ? 419 360-7414 P.S. The hangar is available for parties, birthdays, retirements, class reunions, weddings, receptions or any time you need lots of space. Full kitchen, sound system, video screen, margarita machine, tables and chairs for 100 plus separate dance floor. Private parking lot.

Friday-Saturday, May 24-25, 2024

Pancake breakfast on Second Saturday (continuing
event) at David J. Perry Airport, Goldsby, Oklahoma.
EAA Chapter 1612 which meets on the second Sat-

urday of the month at the David J. Perry Airport from 10:00 to 11:30 am. We accepted the offer last Saturday and will begin conducting our Chapter 1612 fly-in/drive-in breakfast before our meetings beginning 13 April from 8:00 to 9:45 am. Funds raised will support aviation flight scholarships for area youth.
